

The Master of Science Nursing and the Post-Master's Family Nurse Practitioner programs at CSU Channel Islands received national accreditation by the Commission on Collegiate Nursing Education (CCNE). The program was notified that its accreditation was effective September 20, 2021. Accreditation of a nursing program demonstrates that the program has met rigorous educational standards and allows graduates of both programs to apply for national certification as either a Family Nurse Practitioner or a Nurse Educator.

Many thanks to the faculty and staff who worked hard over the past four years to assure a high-quality graduate nursing program was available to students in Ventura, Santa Barbara, and San Luis Obispo counties. By providing graduate nursing education, the program is achieving its goal of providing advanced practice healthcare professionals who will serve their communities.

The Master's program and Post-Master's Family Nurse Practitioner certification degree programs at CSU Channel Islands are accredited by the CCNE:
